SPECTRA HOSTS FOOD TASTING FOR NEW MENU ITEMS

The official concession provider for Texas Tech, Spectra, hosted a food tasting event on Aug. 25 at Jones AT&T Stadium to try out the new menu items for this year, which includes a partnership with Papa John's.

The new menu items include three different types of pizza from Papa John's; cheese, sausage and pepperoni. It also includes foods such as sriracha burgers, BBQ chopped beef sandwiches, spicy jalapeño sausage wraps, bratwurst served on a hot bun topped with sautéed onions and bell peppers, general manager of Spectra Charlie Carrizalez said.

Spectra and Tech also partnered with Coca-Cola to rebrand the concession stands at the stadium, Carrizalez said.

"We've brought in Frito pies and instead of using chili like a traditional Frito pie, we're actually doing it with brisket," Carrizalez said. "So, those are some of the new items that we've brought in."

Fans will get a chance to try out the variety of concession items now available during the season opener against Eastern Washington on Sept. 2 at Jones AT&T Stadium.
